

## CodeFinal®

Modernized Fire Permitting,  
Pre-Planning, and Inspections

### Do You Need a Go-To Solution for Fire Safety?

Fire safety can be a time-consuming, paperwork-heavy process. Built for Fire Marshals and Inspectors, CodeFinal simplifies fire prevention operations from start to finish. With this fire inspection software, you can replace stacks of forms with digital tools for incident pre-planning, permit management, inspections, and occupancy tracking—all stored and accessible in one platform. Digital invoicing also enables secure online payments, eliminating the need for checks or in-person visits. Designed specifically for fire professionals, CodeFinal streamlines every facet of fire safety, boosting productivity, and enhancing community protection.

### How You Can Benefit from Fire Inspection Software:

#### No More Paperwork

Digitize fire inspection processes end-to-end with automated annual inspection, scheduling, permit workflow, and reporting included. Ensuring efficient inspections and streamlined data access.

#### Built With You in Mind

CodeFinal is designed for Fire Marshals and Inspectors, offering tailored tools for seamless operations, allowing you to access vital data anywhere, anytime.

#### Pre-Plan with Ease

Plan ahead by digitizing critical information, including maps, hazard data, and occupancy details. Easily create incident pre-plans and get them in the hands of first responders.

#### One Solution

Consolidate all your activities into a single platform, allowing for streamlined communication, improved inspections, and a better applicant experience.

### Trusted By the Best

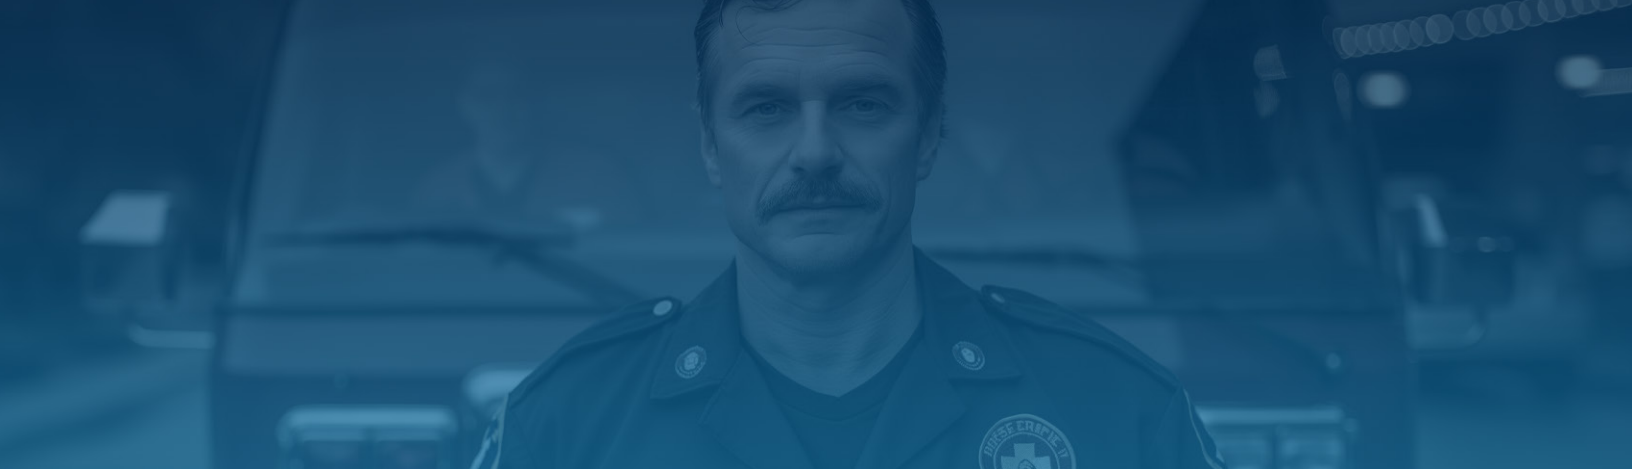

“

CodeFinal is the all-in-one solution our Fire Prevention Bureau needed. It's a game-changer for tracking and managing our fire prevention efforts.

”

— Paul Peebles

Assistant Chief, Black Jack Fire Protection District

## Discover Our CodeFinal Offerings

Say goodbye to manual, offline processes. CodeFinal is built for fire prevention, streamlining your permitting, inspection management, incident pre-planning, occupancy records, digital payments and more.

### Incident Pre-Planning

Create pre-plans with maps, building details, hazard information, fire hydrants, photos, and more.

### Streamlined Permitting

Automate permitting from start to finish, from permit application, to inspection, payment and permit approval—all online.

### Annual Inspection Management

Assign and schedule annual inspections and receive follow up notifications—ensuring your occupancies are inspected and compliant.

### Organized Occupancy Records

Centralize digital occupancy information for instant access—update contacts, track businesses, and streamline data.

### Digital Payments

Simplify the payment process by eliminating the need for in-person visits. Speed up transactions with online payment integration.

### Mobile Integration

Equip crews with digital pre-plans with LiveDash® Mobile, providing lifesaving information to your first responders.
